#### **Malonic Acid**

# SECTION 1: Identification of the substance/mixture and of the supplier

Product name : Malonic Acid

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: S25416

Recommended uses of the product and uses restrictions on use:

**Manufacturer Details:** 

AquaPhoenix Scientific 9 Barnhart Drive, Hanover, PA 17331

## **Supplier Details:**

Fisher Science Education 15 Jet View Drive, Rochester, NY 14624

## **Emergency telephone number:**

Fisher Science Education Emergency Telephone No.: 800-535-5053

## **SECTION 2: Hazards identification**

# Classification of the substance or mixture:

## Irritant

Acute toxicity (oral, dermal, inhalation), category 4

#### Corrosive

Serious eye damage, category 1

AcTox Oral. 4 Eye Damage. 1

Signal word : Danger

## **Hazard statements:**

Harmful if swallowed

Causes serious eye damage

## **Precautionary statements:**

If medical advice is needed, have product container or label at hand

Keep out of reach of children

Read label before use

Wear protective gloves/protective clothing/eye protection/face protection

Do not eat, drink or smoke when using this product

Wash skin thoroughly after handling

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do.

Continue rinsing

Immediately call a POISON CENTER or doctor/physician

IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell

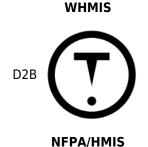

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting

Dispose of contents and container to an approved waste disposal plant

**Effective date**: 01.20.2015 Page 2 of 7

#### **Malonic Acid**

### Other Non-GHS Classification:

HMIS RATINGS (0-4)

## **SECTION 3: Composition/information on ingredients**

Ingredients:				
CAS 141-82-2	Malonic Acid	100 %		
		Percentages are by weight		

### **SECTION 4: First aid measures**

## **Description of first aid measures**

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. DO NOT use mouth-tomouth resuscitation. Get medical assistance.

After skin contact: Wash hands and exposed skin with soap and plenty of water. Immediately get medical assistance.

**After eye contact:** Protect unexposed eye. Rinse or flush exposed eye gently using water for 15-20 minutes. Remove contact lenses while rinsing. Immediately get medical assistance.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Never give anything by mouth to an unconscious person. Immediately get medical assistance.

# Most important symptoms and effects, both acute and delayed:

Irritation.Headache.Nausea.Shortness of breath.;

### Indication of any immediate medical attention and special treatment needed:

If seeking medical attention provide SDS document to physician. Physician should treat symptomatically.

## **SECTION 5: Firefighting measures**

## **Extinguishing media**

Suitable extinguishing agents: Use water, dry chemical, chemical foam, or alcohol-resistant foam.

For safety reasons unsuitable extinguishing agents:

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 01.20.2015 Page 3 of 7

#### **Malonic Acid**

## Special hazards arising from the substance or mixture:

Thermal decomposition can lead to release of irritating gases and vapors. Dust from this material can form explosive mixtures with air. During a fire, irritating, and highly toxic gases may be generated by thermal decomposition or combustion.

## **Advice for firefighters:**

**Protective equipment:** Wear protective eyeware, gloves, and clothing. Refer to Section 8.

**Additional information (precautions):** Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing. Avoid generating dust.

# **SECTION 6 : Accidental release measures**

### Personal precautions, protective equipment and emergency procedures:

Ensure adequate ventilation. Ensure that air-handling systems are operational.

#### **Environmental precautions:**

Should not be released into environment. Prevent from reaching drains, sewer, or waterway.

## Methods and material for containment and cleaning up:

Wear protective eyeware, gloves, and clothing. Refer to Section 8.Follow proper disposal methods. Refer to Section 13.Sweep up and containerize for disposal. Avoid generating dust. Always obey local regulations. If necessary use trained response staff or contractor. Evacuate personnel to safe areas. Keep in suitable closed containers for disposal. Pick up and arrange disposal without creating dust.

#### Reference to other sections:

## **SECTION 7 : Handling and storage**

### Precautions for safe handling:

Avoid contact with skin, eyes, and clothing. Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Follow proper disposal methods. Refer to Section 13. Wash hands after handling. Avoid contact with skin and eyes. Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink, smoke, or use personal products when handling chemical substances.

## Conditions for safe storage, including any incompatibilities:

Store in a cool location. Keep away from food and beverages. Protect from freezing and physical damage. Provide ventilation for containers. Keep container tightly sealed. Store away from incompatible materials.

## **SECTION 8: Exposure controls/personal protection**

## **Control Parameters:**

No applicable occupational exposure limits

Appropriate Engineering controls:

Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 01.20.2015 Page 4 of 7

#### **Malonic Acid**

**Respiratory protection:** Not required under normal conditions of use. Where risk assessment

shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved

breathing equipment.

**Protection of skin:** Select glove material impermeable and resistant to the substance. Select

glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear

protective clothing.

**Eye protection:** Wear equipment for eye protection tested and approved under

appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.

**General hygienic measures:** Perform routine housekeeping. Wash hands before breaks and at the end

of work. Avoid contact with skin, eyes, and clothing. Before wearing wash

contaminated clothing.

# **SECTION 9 : Physical and chemical properties**

Appearance (physical state,color):	White solid	Explosion limit lower: Explosion limit upper:	Not Determined Not Determined
Odor:	Odorless	Vapor pressure:	Not Determined
Odor threshold:	Not Determined	Vapor density:	Not Determined
pH-value:	Acidic in solution	Relative density:	1.600 g/cm3
Melting/Freezing point:	133-137 °C	Solubilities:	Soluble
Boiling point/Boiling range:	140 °C	Partition coefficient (noctanol/water):	Not Determined
Flash point (closed cup):	172 °C	Auto/Self-ignition temperature:	Not Determined
Evaporation rate:	Not Determined	Decomposition temperature:	Not Determined
Flammability (solid,gaseous):	Not Determined	Viscosity:	a. Kinematic:Not Determined b. Dynamic: Not Determined

**Density**: Not Determined

Malonic Acid: Molecular Weight: 104.06

## SECTION 10 : Stability and reactivity

**Reactivity:**Nonreactive under normal conditions. **Chemical stability:**Stable under normal conditions.

**Possible hazardous reactions:** None under normal processing.

**Conditions to avoid:**Incompatible materials.

Incompatible materials: Bases, Oxidizing agents, Reducing agents

Hazardous decomposition products: Carbon oxides.

## SECTION 11: Toxicological information

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 01.20.2015 Page 5 of 7

#### **Malonic Acid**

Acute Toxicity:				
Oral:	141-82-2	LD50 Oral - rat - 1,310 mg/kg		
Inhalation:	141-82-2	LC50 Inhalation - rat - 1 h - > 8,989 mg/m3		
Chronic Toxicity: No additional information.				
Corrosion Irritation:				
Dermal:	141-82-2	Skin - rabbit Result: Mild skin irritation - 24 h		
Ocular:	141-82-2	Eyes - rabbit Result: Severe eye irritation		
Sensitization:		No additional information.		
Single Target Organ (STOT):		No additional information.		
Numerical Measures:		No additional information.		
Carcinogenicity:		No additional information.		
Mutagenicity:		141-82-2: rat Morphological transformation.		
Reproductive Toxicity:		No additional information.		

## **SECTION 12: Ecological information**

## **Ecotoxicity**

Toxicity to fish LC50 - Lepomis macrochirus - 150 mg/l - 24 h: 141-82-2

Toxicity to daphnia and other aquatic invertebrates EC50 - Daphnia magna (Water flea) - 275 mg/l -

**48 h**: 141-82-2

Persistence and degradability:

**Bioaccumulative potential:** 

Mobility in soil:

Other adverse effects:

## **SECTION 13: Disposal considerations**

# Waste disposal recommendations:

Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

## **SECTION 14: Transport information**

#### **UN-Number**

Not Regulated

## **UN proper shipping name**

Not Regulated

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 01.20.2015 Page 6 of 7

## **SECTION 15: Regulatory information**

## **United States (USA)**

# SARA Section 311/312 (Specific toxic chemical listings):

Acute

## SARA Section 313 (Specific toxic chemical listings):

None of the ingredients is listed

#### RCRA (hazardous waste code):

None of the ingredients is listed

## TSCA (Toxic Substances Control Act):

All ingredients are listed.

# CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):

None of the ingredients is listed

#### Proposition 65 (California):

### Chemicals known to cause cancer:

None of the ingredients is listed

## Chemicals known to cause reproductive toxicity for females:

None of the ingredients is listed

# Chemicals known to cause reproductive toxicity for males:

None of the ingredients is listed

## Chemicals known to cause developmental toxicity:

None of the ingredients is listed

#### Canada

## Canadian Domestic Substances List (DSL):

All ingredients are listed.

## Canadian NPRI Ingredient Disclosure list (limit 0.1%):

None of the ingredients is listed

## Canadian NPRI Ingredient Disclosure list (limit 1%):

None of the ingredients is listed

## **SECTION 16: Other information**

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations.Note:. The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond

according to 29CFR1910/1200 and GHS Rev. 3

**Effective date**: 01.20.2015 Page 7 of 7

#### **Malonic Acid**

our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
